

MP 250

MODEL 24V | 36V

OFTEN IMITATED BUT NEVER EQUALED.

It's no surprise the competition envies our original design. This agile and versatile personnel carrier has it all: A narrow deck, four wheels for greater stability on rough terrain, powerful motor, rugged automotive differential, and larger self-adjusting drum brakes, all-steel unibody construction, bolt-on front bumper and sidebar protection, easy-to-access under-seat battery compartment... The list keeps going. It can also pull up to 2,700 Kg.*, making it a great tow tractor.
