LOGISTEC WORK POSITIONER

The Logistec work positioner is a high-quality stainless steel mobile lifter, available with maximum lifting capacities of 150kg and 300kg. This versatile lifter is available with a variety of frame configurations and attachments.

These lifters are ideal for handling a wide range of products including;

- Drums and Barrels
- Boxes and Containers
- Packaging Reels
- Rolls of Film

MODEL	DESCRIPTION	CAPACITY (KG)
6051001	Each Logistec has its own specification depending on your attachment.	300
6051002	Each Logistec has its own specification depending on your attachment.	150

INTERCHANGEABLE ATTACHMENTS

Platform Attachment

This is suitable for lifting and positioning loads such as Reels, Drums, Components, Boxes, Containers, Tooling, Assemblies, etc. Applications include work positioning on assembly lines and work areas.

The Rotary Tray Attachment

Has been designed to support loads and allow them to rotate in the horizontal plane through 360° suitable for lifting and positioning loads such as Reels, Drums and Sacks.

Twin Spindle Attachments

This attachment has been designed to provide a simple means of lifting and transporting reels by the reel's diameter.

Single Spindle Attachments

These attachments have been designed to provide a simple means of lifting and transporting reels using the reel's core for support.

Cradle Attachment

This attachment has been designed to lift and transport reels by supporting mandrels positioned through the reels core.

INTERNAL REEL HANDLING ATTACHMENTS TO SUIT LOGISTEC WORK POSITIONERS

Versatile reel handler enables easy and safe handling of reels or coils. The reel handler is used to lift and rotate reels of film and paper by gripping the reel's core. Available in a variety of configurations and lifting capacities of up to 200kg.
